

FESTIVAL PROGRAM

Festival of Slow Music

BALLARAT VICTORIA
22-30 AUGUST 2015

WELCOME FESTIVAL OF SLOW MUSIC 2015

It is with a mix of nerves and excitement that I write this as we approach the third Festival of Slow Music. It is a large, ambitious undertaking to present the range of concerts and performers that we do, but there has been a good team behind the scenes to pull it together. It is fantastic to see what is possible as FoSM is now establishing itself within the Ballarat cultural landscape.

In the programming, there is the attempt to explore certain themes, offering different perspectives on a particular subject. This year, given the diplomatic challenges our nation has had, it seemed appropriate to engage with the musical cultures from some of our Asian neighbours in traditional, contemporary and mixed contexts, which has support from the Victorian Multicultural Commission.

Excellence in music performance is a continuing objective of the Festival of Slow Music. Examples of this are the FoSM Symposium, this year presenting

eight of the country's finest pianists, and Space is the Place, an overnight event at the Ballarat Observatory, both assisted by the Australia Council.

Another feature throughout FoSM 2015 will be the Federation Handbells, in part due to their small cameo in last year's festival, and supported this year by Museum Victoria through the joint presentation of the Quiddity Composition Project.

As you can see, there is another theme emerging here; partnerships. This is increasingly what I understand music is for – bringing people together.

Approaching this festival, my excitement is strengthened knowing that there is a growing FoSM community. Thanks for being a part of it, and I look forward to enjoying the experience together.

Adam Simmons
Artistic Director

ABOUT THE FESTIVAL

The Festival of Slow Music, now in its third year, will again run over nine days, with dozens of musicians presenting over 40 different performances. The distinguishing feature of the festival is that the concerts are all acoustic – no amplification at all. This helps encourage deeper listening and greater connection between musician and audience. Remember, the idea of ‘slow’ is not about tempo, it’s about the philosophy: taking time to listen, unprocessed sounds, meeting the artists, sharing and discussing experiences.

It can be helpful to think of ‘slow food’. Keep this in mind when choosing what to go and hear. At a fast food outlet (with the obvious exception of the Ballarat Hamburger Cart) you know the menu before you enter the door, but when you go to a good restaurant, you want to be

surprised, delighted, you want an experience, you expect something special. It might not be something you do every day, but having your senses awakened to new tastes is a rich, rewarding experience. Similarly, the Festival of Slow Music seeks to offer something unique, something you won’t forget and something that you will only get in Ballarat.

The Festival of Slow Music is now a fixture in the Ballarat cultural calendar, which includes three other concurrent major events: Victorian Indigenous Art Awards, Ballarat International Foto Biennale and Melbourne Writers Festival (presented at M.A.D.E.). The Festival of Slow Music is proud to be part of promoting and presenting musical excellence in a city with such rich artistic heritage and offerings.

SATU VÄNSKÄ WITH BRIAN RITCHIE AND JIM MOGINIE

A most unlikely trio for an unlikely gig – Australian Chamber Orchestra's lead violinist **Satu Vänskä** joins forces with **Jim Moginie** (Midnight Oil) and **Brian Ritchie** (Violent Femmes) for this intimate acoustic performance in the Minerva Space. From Satu's description, it all seems a perfect fit.

Satu writes:

Jim Moginie, Brian Ritchie and I have been collaborators since 2012 when ACO Underground performed its first concerts in Sydney. Our repertoire ranges from Nine Inch Nails and Nirvana to JS Bach and Gesualdo, in a dark standing-room-only venue where the smell of previous night's rave party still in the air, the sound of a beer bottle clinking is part of the natural environment and clapping when you feel appropriate is not met with a murderous stare from an angry connoisseur. Call it whatever you like, classical cross-over, rockers gone elitist, or simply music heard in a chamber, but the reason we got together in first place was purely from the simplistic desire to be as alive as possible as musicians and share it with the audience. What better way

is there to feel alive than when taking risks and exploring the unknown in an appropriately clandestine atmosphere to discover how we react when we dare to act on the 'what if...' and let the result be a surprise.

Tonight you will hear us in our most intimate, acoustic trio-minuscule-mode from our extended ACO Underground family. This program includes a selection from JS Bach's Solo Violin repertoire juxtaposed together with Lutheran hymns in Finnish including few other songs in arrangements fitted for this particular combo of misfits.

Our lives collide with music's kaleidoscopic universe and as musicians it is our greatest honour to be the transmitters between the two, bringing us all together, alive in the moment.

MICHAEL KIERAN HARVEY

ADAM SIMMONS CREATIVE MUSIC ENSEMBLE

Concerto for Piano and Toy Band

Two iconoclasts come together to present a work that combines classical forms with jazz sensibility. **Michael Kieran Harvey** is an internationally recognised, classically trained pianist who has championed contemporary composition, while **Adam Simmons'** work with his infamous Toy Band is acclaimed for its unique blend of jazz, art and entertainment. Not to mention a rubber chicken or two...

Through the classical form of the 'concerto', connections are explored between different worlds: solo/ensemble, classical/jazz, instruments/toys and serious/humorous. The work is also informed by the concept that these contrasts are the opposite ends of the same pole.

For this premiere performance, accompanying Michael will be Adam's Creative Music Ensemble – a special ensemble of outstanding musicians from Ballarat and Melbourne with Origami's rhythm section as the backbone.

Michael Kieran Harvey – piano
Adam Simmons, Gideon Brazil, Cara Taber – saxes
Gemma Horbury, Amie Brûlée – trumpets
Bryn Hills – trombone

SLOW RIVEN WHIRL

)-(u||!c|< [James Hullick]

Conceptually Slow Riven Whirl flows on from)-(u||!c|<'s These Compulsive Behaviours, which premiered at the Melbourne Festival 2014. These Compulsive Behaviours was created as an act of sonic devotion to James Hullick's partner, Charlotte.

Text created by James Hullick for Slow Riven Whirl rotates around the contemplation of remarkable but fallen women — ultimately felled by misguided communities. Some known. Some forgotten. Hypatia of Alexandria, ancient philosopher and teacher, is one such figure. Karen Silkwood, activist, another.

The work is to be performed by the BOLT Ensemble and will feature leading Australian poet **berni.m.jansen** as orator of text and)-(u||!c|< vocalizing and eliciting found sounds.

FINALE

SUITE ACTUALITY

Ad Hoc Music Collective

A seven movement Suite for String Quartet, Voice and Visuals

What is our reality?
Are our sense experiences the same?
What do we really see, hear...and feel?

Suite Actuality is an evocative exploration of sound, sight, perception and emotion. Based around three traditional string quartet movements and four improvised movements, all inspired by the composer's own photographs, Suite Actuality then sets out a challenge: through this multi-sensory exploration, can we create a common experience, and share a rich internal understanding?

In presenting and creating these fixed and fluid multi-sensory responses, the composer and performers continually ask the audience: Do you see what we see? And together, what do we feel?

Suite Actuality is aesthetic and expressive, atmospheric and challenging. Developed for the inaugural FoSM (originally with Freya Hollick, who was unavailable on this occasion) it was one of the 2013 festival highlights. Since then it has developed further with the addition

of the visual element. The fifty-minute performance weaves classical, jazz and modern themes with vocal and visual avant-garde improvisation, all masterfully rendered by the versatile Ad Hoc Music Collective.

Composed by Andrea Keeble.
Visuals by Dotahn Caspi.

Andrea Keeble/Sarah Curro – violins
Jason Bunn – viola
Anita Hustas – double bass
Carolyn Connors – voice

Combined with an original and contemporary play on musical ideas, Afroval welcomes audience's toes to tap or head to nod to a groove-toned beat. Afroval will be supporting Mafikizolo and Oliver Mtukudzi on their upcoming Australian tours.

Tony Gould

Passing through many periods of music in the last 50 years, Tony Gould has developed his own distinctive style, which insists on the primacy of melodic material, the complex and glorious world of harmony and of playing things differently each and every time. He is himself influenced by many musicians past and creative beings such as Bach, Rosalie Gascoigne, Stravinsky, Robert Hughes, Mahler and Jackson Pollock.
